

# Parasol

1. The closed parasol is secured with a tape. Release the tape before use.

2. Fold back the fabric to "uncover" the tensioning struts.

3. Press the tensioning struts lightly outward and pull on the parasol rope (low tension).

4. Open the parasol using the pulley mechanism.

5. Position the rotating section over either one of the two bore holes. (Fabric stretched taut).

6. Push the retaining pin through the hole all the way.

7. Fold the parasol rope into loops.

8. Attach the pullrope to the pulley using the hook and leather strap.

9. Fully opened parasol.
